M E M O R A N D U M

TO: All Academy Directors/State of Florida

FROM: David E. Walsh, Academy Director

SUBJECT: Psychic, Noreen Renier

I did something different during one of my advanced classes and had such a positive feedback from officers in attendance that I wanted to pass the information on to you.

During most classes, there are blocks of instruction under "electives" that "leave the choice of subject matter up to the Academy Director". In the course I was putting on, there were 8 hours of electives and the course was being taught four hours each night.

I had received a flyer from PSYCHIC, Noreen Renier in the mail and decided to use her. Her class was outstanding. She worked on two local cases and taught officers how to work with a psychic. All the students requested I find a way to bring her back.

NOREEN RENIER has worked with over 200 law enforcement agencies in the past with her most interesting and different approach in assisting officers with unsolved cases.

I believe Ms. Renier is a truly outstanding, interesting and informative instructor and felt that you would like to know. If I can be of any assistance or can give you any further information regarding the above, please do not hesitate to contact me.

To Whom It May Concern:

During the past three years, Ms. Renier has conducted four programs for the Division of Continuing Education on the general topic of the "psychic connection in criminal investigation." Her presentations have been outstanding and the participant evaluations have revealed that she presented her material with great enthusiasm. Her ability to interact and to involve participants in her presentation has always been outstanding. Of special interest has been Noreen's ability as a psychic to elaborate on details of cases brought to class by the students without prior knowledge. Many of these have remarked that they came to her class as "skeptics" but walked away with a tremendous appreciation of her abilities in this area.

Over the past year, Noreen has been featured in numerous national television programs and many articles have been written about her skills as a psychic.

We offer her program not as a proven technique in criminal investigation, but to provide the officer with an understanding of psychic ability as a possible "approach" in the solving of crimes. We have never nor will ever claim it to be technique that every law enforcement agency should utilize; rather we offer the program so interested persons might have the opportunity to learn more about the subject.

If you desire additional information about Noreen and her specific classroom skills, please do not hesitate to call me at (302) 573-4440.

Sincerely,

Jacob Haber
