Noreen Renier

Psychic Detective

When Psychic Detective Noreen Renier first lectured at the FBI Academy in Quantico, Virginia, her work with the police was considered controversial. Now, she is a well-known psychic detective who has worked on over 500 unsolved cases with city, county, and state Law Enforcement Agencies in 38 states and 6 foreign countries. She has a unique understanding of both the police and the paranormal.

Noreen Renier's engaging lecture and engrossing personal account of how she began her work on some of the many murder and missing persons cases she has been asked to investigate. This fascinating first-person true crime lecture brings the audience directly into Noreen's world--in which reliving emotionally shattering and physically violent experiences is part of the job--and underscores the humor and courage of this truly original woman. This police psychic will intrigue and entertain you.

From the offbeat--who killed the thoroughbred horse, and why?--to the extraordinary--becoming a missing airplane to locate its wreckage--to the horrific--re-living a young woman's rape and murder. Noreen Renier will take her audience on a wild journey of suspense and discovery in a world where a pair of bloody eyeglasses, an earring, a dead horse's tail speak of rape, murder, and mayhem.

"She was both informative and entertaining."
